

Public WiFi

The availability of public WiFi hotspots has continued to grow in Alberta and worldwide.⁶⁹ Consumers now expect WiFi wherever they go, and it is becoming an important service feature not only for ISPs, but for retail service providers as well as public organizations such as the various levels of government.

This section will provide an overview of the types of public WiFi available in Alberta.

ISP WiFi Hotspots

Municipally Driven WiFi Hotspots

Business Public WiFi

Provincial and National Parks
