

Rapid Access Cloud

RAPIDACCESS C L O U D

A free cloud computing resource for Alberta innovators!

Cybera's Rapid Access Cloud, an award-winning program, provides free cloud computing resources to Alberta-based academics, researchers, non-profits and small to medium sized organizations that are not covered by the national DAIR program.

It is intended to:

- Help researchers utilize cloud computing environments for testing, analysis and experimentation
- Providing a competitive advantage by offering a staging ground to test their ideas for cloud-based services, before moving to a commercial cloud platform
- Provide a learning environment for people to explore the possibilities and benefits of cloud computing

Rapid Access Cloud Support

If you require support for the Rapid Access Cloud, please see our [Basic Guide](#) and [Frequently Asked Questions](#) or email rac-admin@cybera.ca, we would be happy to hear from you!
